Toronto Police are investigating after a video of a man kicking a woman multiple times in the back of the head and torso was posted online this weekend. The video, posted on YouTube on Sunday, shows a woman walking on the sidewalk in the Shatila neighbourhood. She trips, and the man walks up to her, pulls her to her feet and kicks her multiple times in the back of the head and torso. The man appears to have a weapon on his person, although it is not clear what that is. Residents can be heard shouting at the man to stop, to which he responds by saying, "Get the fuck away from me." Police have been unable to locate the woman or the man. According to police, the assault happened at around 4:45 a.m. on Sunday morning. Police say the woman suffered head, neck and back injuries, and was transported to hospital with non-life threatening injuries.Q: How can I transfer and set a single attribute to subdomains in Craft 3? In Craft 2 I could set a single attribute for a subdomain, so that local.domain.com and www.domain.com are always, always, always set to a different value. Then I could use
